MUSAB AKHTAR

Software Quality Assurance

As an enthusiastic and dedicated Software Quality Assurance intern, I am excited to bring my passion for ensuring software quality and my willingness to learn to contribute to your dynamic team. I am eager to gain hands-on experience in testing methodologies, test automation, and quality assurance best practices.

AUTOMATED ECOMMERCE WEBSITE | TESTING

DESCRIPTION

Developed an end-to-end test automation framework to validate the functionality of an e-commerce website using Java, Selenium WebDriver, TestNG, and Extent Reports. The project aimed to automate key user scenarios and ensure the accuracy and reliability of the website's features.

KEY ACCOMPLISHMENTS :

- Developed a robust and maintainable automation framework based on the Page Object Model (POM) pattern.
- Implemented explicit waits using the Utilities class to prevent script failures due to synchronization issues.
- Utilized WebDriverManager for managing WebDriver binaries, eliminating the need for manual executable path configuration.
- Integrated TestNG for test orchestration and assertion management, ensuring test reliability.
- Generated Extent Reports for each test run, providing comprehensive test results with screenshots on failures.
- Achieved data-driven testing by reading test data from a properties file, enhancing test coverage and flexibility.

ACTIVITIES

RIDER | BYKEA

Handled a high volume of ride requests and deliveries, maintaining a strong focus on customer satisfaction.

VOLUNTEER | PIAIC

Assisted in organizing and coordinating various events, workshops, and seminars conducted by PIAIC.

Key Competencies:

- Attention to detail
- Planning and organizing
- Judgment
- Problem analysis and problem-solving
- Ability to think and work independently
- Energetic
- Decision-making
- Teamwork
